

LA CARTE DU NORD

PCFTF BRUSSELS - Eight performances of a capital city

Sturm auf die Bastille, Guantanamo, L'entrance du Christ à Bruxelles, Armani-Models, Nostradamus' Revolution, La carte illegale, La carte sans papier, ... LA CARTE DU NORD

... is one of the eight Postcards From The Future (C&H) of Brussels :

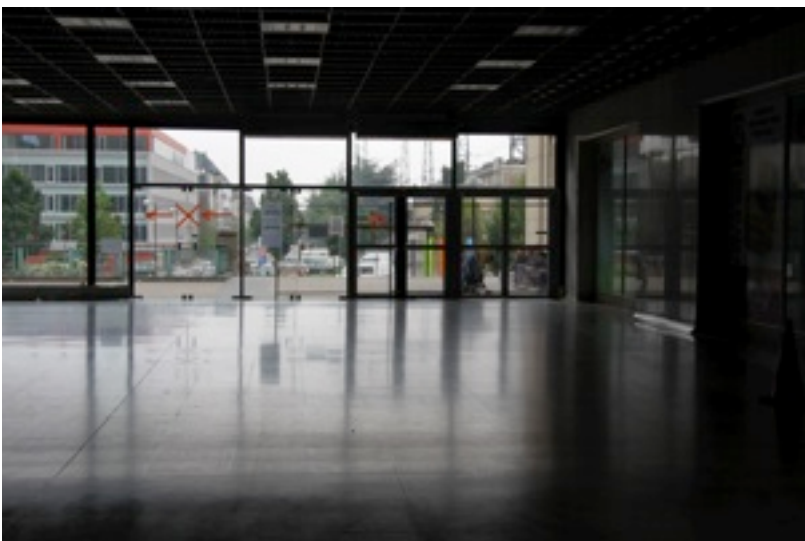

The Postcard From The North (St. Josse, Schaerbeek, Noordwijk) is an homage by many different people to Gare du Nord, a hyper-mobile space and public place in Brussels.

Gare du Nord offers lots of undefined areas inspire of being used exhaustively by many different populations it offers lots of undefined areas. Considered a space Gare du Nord comes over 'large, 'wide' and 'empty'.

Considered a public place, North station can be claimed by travelers (la gare), merchants (shops), company employees (offices), social-workers, youngsters (skating, breakdancing, etc), sans-papiers / immigrants without residence authorization (waiting), multiple dependencies (clients/ dealers) and people living on the streets out of divers reasons (shelter).

The homage to Gare du Nord is being developed based on the impressions of first encounters : only today, woking collectively on possible sceneries, the image for the card starts to be more concrete. We are working on its elaboration under different working-titles : ***Sturm auf die Bastille, Guantanamo, L'entrance du Christ à Bruxelles, Armani-Models, Nostradamus' Revolution, La carte illegale, La carte sans papier, ... LA CARTE DU NORD*** : These titles are supporting the many ideas, complementing to a 'collective' image-proposal and were emerging while choosing the area as well as the actions which will be depict on the postcard : various styled people coming up the stairs of the entrance towards Schaerbeek.
